Com.C.K.Madhivanan should mind his own business

In our circle conference, com.P.Abhimanyu, General Secretary, rightly advised us that we should not have invited com.C.K.Madhivanan to address our conference, since his full time job is disrupting workers unity for his personal gains. Our General Secretary made us to understand, by pointing out that it is only because of his disruptionist role and mischievous character, that com.Madhivanan is thrown out of the post of Deputy General Secretary of NFTE. The entire comrades of the conference received the General Secretary's advice, with a very big applause.

If com. Madhivanan feels insulted, he should not feel angry with anyone else, but only try to correct himself. But, we know that he is an incorrigible element. To give vent to his anger, com. Madhivanan has maligned our General Secretary, by saying that he attacked the CGM and NFTE's General Secretary in his speech. As we have already explained, our General Secretary did not attack the CGM, but made certain criticism, from the angle of a trade union leader. Further, our General Secretary has no reason to attack NFTE's General Secretary. In fact, the General Secretary explained how BSNLEU and NFTE is maintaining very cordial relationship at the All India level, which is lacking in Chennai Telephones, because of the monkey dealings of com.C.K.Madhivanan.

In his reply to our website write up, com.Madhivanan has spitted venom against me. He has stated that I have achieved my life-time ambition of becoming the circle secretary. It is known to everyone that I have selflessly spent my entire life for the trade union movement. I am not leading a luxurious life like com.Madhivanan, by spending worker's money. Even after retirement, com. Madhivanan is sucking worker's blood like a parasite. There is no circle secretary in the whole country - in any union - who is spending worker's money for his personal luxurious life, like com.Madhivanan. Luxury car, driver, petrol, etc.etc, at worker's money. That is why this parasite is not quitting circle secretary post even after retirement. He is leading the life of a trade union 'dhadha', rather than the life of a trade union leader. Has he got any moral right to criticise a person like me, who is democratically elected as circle secretary by workers? Com.Madhivanan should realise that time has changed. He should mind his own business and stop abusing our union and our leaders. Otherwise, we will be compelled to tear off the mask that he is wearing, and show his real face to the workers.
